

## 基因改良作物命運大不同

身為世上最大基因改良（GMO）棉花生產者的中國大陸，已經批准將經過基因改良的混種棉花進行商業化，預料可以解決生活日用品上的短缺。相對於此，歐盟的農業部長們，卻對於是否批准編號1507的基因改良玉米，陷入一個進退維谷的困境。但是經過8年激烈的反對，丹麥卻允許基因改良玉米的進口。

而在美國有85%的大豆，76%的棉花，45%的小麥是經過基因改良的。至於澳洲農業與資源經濟局則最近則對基因改良作物做出一份報告，認為各省禁止基因改良食品會減小經濟效益，使澳洲面對世界各地日益增多的基因改良作物發展，屈居弱勢。至終可能會在十年後造成1.5億到6億澳幣的損失。
